R5:

LSA:

Hyper-parameters: emb_size=50, window_size=1, k=10

Difference:

LSA:

The horizontal coordinate range is (0, 30), and the vertical coordinate range is (-12, 2).

Vectors of "学","习","人"and"仁" are significantly different from vectors of "子"and "曰"

Vectors of "人"and"仁" are almost the same. Vectors of "学"and "习" are similar.

SkipGram:

The horizontal coordinate range is (0, 3), and the vertical coordinate range is (0, 0.8).

Compared with plot of LS, the six vectors do not differ significantly overall

There are no vectors that are similar or even identical.
